

Service 5 : e-Business Strategy Implementation

Bhilwara Consulting Group is first and foremost a source of expertise for adding value to a business. To be sustainable, an e+Strategy must satisfy all the business fundamentals. Our e+Strategy adds business value, not just technical whiz-bang. Our expertise include planning for business success.

We are there since technology waves arrived to give businesses additional assets and capabilities useful for success (distributed marketing, outsourcing, air-freight, over-night package delivery, phone/fax/e-mail, and now the Internet).
